

Dear Parents and Caregivers –

As noted in Friday's [*Update*](#), we have been working with our *Pinpoint* vendor to add the voluntary COVID-19 testing consent to our daily screener. This *Update* is to let you know that the questions on the attached document will be added to Pinpoint **beginning Tuesday, December 8.**

A few additional points on this:

1. Based on the current data and seven-day rolling average for the region, it appears that we will be designated as a Yellow Zone this week. We will notify you of this and associated details as soon as we have them.
2. Your consent to be tested is voluntary and you will ***not*** be disallowed from attending school if you do not provide consent.
3. Selection for testing will be done through random selection.
4. As the requirements currently stand, once designated a Yellow Zone we will be required to test 20% of our in-person students and staff over the course of two weeks. Should our resulting percent positive be lower than the designated region, we will no longer be required to test unless the region is then designated as an Orange Zone.
5. As all students and staff who are in attendance are presumed to be healthy/asymptomatic, once tested they will return to class/work.

For additional information, please see the [*Update*](#) which includes a Q and A that was sent on Friday, December 4.

Thanks very much.

Ken Slentz
Superintendent of Schools
