**PRESENTATION ON DISTRICT WIDE SAFETY PLAN**

Kenneth Slentz stated Regulation 155 requires the District Wide Safety Plan be presented in a public setting. He stated there was a distinction between the building level plans and the district level plan.

Ed Martin presented the district level plan. He explained that district safety plan is a public plan/document and that the document was available on the district web site. He further explained the document was to assure the entire community of the existence of safety plans in place for the buildings in the district and that it shows the district has given thought to the safety plans. Mr. Martin encouraged everyone to view the plan and stated the change for this year was the presence of the resource officer.

Mr. Martin further explained that building level safety plans are not public documents, and not available to the public.

Kenneth Slentz thanked Ed Martin for his presentation.
