

Clean Technologies and Sustainable Industries Early College High School Program

What you need to know about the HVCC college coursework?

- College Pathways- Students explore the different career pathways during their sophomore year high school course. We invite business partners and current seniors about the coursework, training, and careers in each major/pathway.
 - Clean Energy Management
 - Community and Public Health
 - Hacking and Cybersecurity
 - Engineering Sciences
 - Entrepreneurship
 - Polysomnography
 - Surgical Technology
- April/May Students will make their final college major choice.
- **College Pathway Restrictions:**
 - Students who have not completed Algebra 2 OR who are not co-enrolled with Algebra 2 at their home school for junior year will be restricted to the Community Health Navigation and Entrepreneurship pathways.
 - Any student who would like to pursue the Engineering Sciences pathway will need to have completed Algebra 2 in their sophomore year of high school so that they are prepared to take the College PreCalculus during their junior year.
- HVCC College Math
 - This is determined by the current math courses and grades students have achieved at their home school.

<u>Sophomore Year</u>	<u>HVCC Math Recommendation</u>	<u>Pathways Available To</u>
Algebra I, Applied Geometry	Intermediate Algebra	Entrepreneurship
Geometry & Enrolled in Algebra II at Home School during junior year	College Algebra with Trigonometry	Clean Energy, Hacking and Cybersecurity, Entrepreneurship, Surgical Tech
Successful completion of Algebra II	College PreCalculus	All Pathways <i>except</i> Community & Public Health
Algebra I	Elementary Statistics	Community & Public Health

- If a student is in Algebra II at their home school and passes it as a sophomore they will take College PreCalculus. A student will not take PreCalculus at their home school.
 - If a student is maintaining less than a 70 in their high school Algebra II course 1st quarter, the student will be recommended to take College Intermediate Algebra as a junior.
- Students will take 2 college courses each semester in person at TEC-SMART from HVCC professors. Based on college requirements, some pathways may only have 1 course in a semester.
- Students will have the coursework in advance so they do not take it at their home school. Students have to take the college coursework assigned to their pathway.
- The college coursework is subject to change by HVCC as their requirements change.
- There are HVCC college classes over February & April high school vacations.

Clean Technologies and Sustainable Industries Early College High School Program

What is Clean Energy Management?

The degree program combines renewable energy and business courses to meet industry demands for employees with a blend of technical skills and business management abilities.

In addition to basic electrical theory and an exploration of photovoltaic, geothermal, wind and fuel cell energies, the program focuses on the essential principles of finance, marketing and business development. You'll also get technical training in PV installation, troubleshooting and maintenance.

Clean Energy Management HVCC College Coursework

HVCC College Coursework	Credits	Year/Semester Taken
MKTG 120 - Principles of Marketing	3	Fall Junior Year
BADM 110 - Legal & Ethical Environment of Business	3	Fall Junior Year
MATH 150 - College Algebra w/ Trigonometry OR PreCalculus	4	Spring Junior Year
ESYS 100 - Wind Energy	1	Spring Junior Year
ECMN 210 - Photovoltaic Systems Theory & Design	3	Fall Senior Year
ECMN 120 - Electrical Theory for Renewable Energy	3	Fall Senior Year
ENGL 101 - English Composition I	3	Fall Senior Year
ECMN 211 - Photovoltaic Systems Installation & Maintenance	3	Spring Senior Year
ECMN 195 - Electrical Power Distribution & Control	3	Spring Senior Year

*****College coursework is subject to change based on HVCC & enrollment decisions.***

<u>Year 5 and 6 Coursework</u>	
ACTG 110 - Financial Accounting	HVAC 203 - HVAC/R Systems Design I
BADM 200 - Business Communications	Liberal Arts & Science Elective
BADM 207 - Organization & Management	Liberal Arts & Science Elective
BADM 220 - Statistics	Business Elective
CISS 100 - Intro to Computing & Info Sciences	Business Elective

What is Community and Public Health?

The degree program is for those interested in the field of community health who may have little or no background in the field. Community health navigators educate, motivate and empower their clients. Working under licensed health care professionals, they serve as a liaison between clients and the health care system, connecting clients with services and providing support for those navigating the health care landscape.

Coursework in this program will help you acquire a broad base of knowledge that spans health care, community health, health insurance, human services, health literacy and chronic diseases.

Community and Public Health HVCC College Coursework

HVCC College Coursework	Credits	Year/Semester Taken
PSYC 100 - General Psychology	3	Fall Junior Year
ENGL 125 - Public Speaking	3	Fall Junior Year
BADM 220 - Statistics	4	Spring Junior Year
SOCL 120 - Cultural Diversity in American Society	3	Spring Junior Year
PSYC 200 - Child Psychology	3	Fall Senior Year
SOCL 110 - Social Problems	3	Fall Senior Year
ENGL 101 - English Composition I	3	Fall Senior Year
CMHL 110 - US Healthcare	3	Spring Senior Year
CMHL 115- Healthcare Ethics	3	Spring Senior Year

*****College coursework is subject to change based on HVCC & enrollment decisions.***

<u>Year 5 and 6 Coursework</u>	
ASLN 100 - American Sign Language & Deaf Culture I	CMHL 205 - Chronic Diseases
BIOL 109 - Biology of the Human Organism	ENGL 104 - English Composition II
CDEP 100 - Intro to Chemical Dependency	HUSV 100 - Social Service Systems
CMHL 100 - Intro to Community & Public Health	HUSV 115 - Perspectives on Disability
CMHL 200 - Community Health Navigation	HUSV 240 - Professionalism in a Diverse Society
CMHL 201 - Community Health Navigation Practicum

What is Polysomnography?

The degree program prepares graduates to work in the field of polysomnography OR electroencephalography diagnostic testing. Polysomnography is an allied health specialty that deals with the diagnostic evaluation and management of patients with neurological and sleep abnormalities.

Neurodiagnostic testing may be done with patients of all ages, from the premature infant to the geriatric patient. Job opportunities may be found in sleep labs and EEG departments OR hospitals OR associated with physician's offices.

Polysomnography technologists administer sleep tests and work with physicians to provide information needed for accurate diagnosis and treatment.

This degree prepares you for a career as a technician/technologist in the field of polysomnography, which deals with the diagnostic evaluation and management of patients with neurological or sleep abnormalities. There are over 80 different sleep disorders including sleep apnea, narcolepsy and insomnia. You will learn how to operate sophisticated electronic monitoring devices which record brain activity (EEG), muscle and eye movements, blood oxygen levels and physiological events.

Polysomnography HVCC College Coursework

HVCC College Coursework	Credits	Year/Semester Taken
PSYC 100 - General Psychology	3	Fall Junior Year
BADM 220 - Statistics	4	Spring Junior Year
PSYC 205 - Developmental Psychology	3	Spring Junior Year
BIOL 139 - Anatomy & Physiology for Respiratory Care Students	4	Fall Senior Year
ENGL 101 - English Composition I	3	Fall Senior Year
PHYS 110 - Physics for the Health Sciences	4	Fall Senior Year
CMHL 115 - Healthcare Ethics	3	Spring Senior Year
RESP 110 - Human Anatomy & Physiology	3	Spring Senior Year

*****College coursework is subject to change based on HVCC & enrollment decisions.***

<u>Year 5 and 6 Coursework</u>	
ENGL 102 - English Composition II	PSGT 210 - Polysomnography Data Analysis & Recording
PSGT 100 - Applied Pharmacology	PSGT 220 - Electroencephalography Clinical
PSGT 120 - Fundamentals of Neurodiagnostics I	PSGT 225 - Polysomnography Clinical I
PSGT 200 - Fundamentals of Neurodiagnostics II	PSGT 235 - Polysomnography Clinical II
PSGT 205 - Sleep and Neurological Disorders	RESP 101 - Basic Interpretation and Performance of the Electrocardiogram

Clean Technologies and Sustainable Industries Early College High School Program

What is Surgical Technology?

Surgical technologists prepare operating rooms, arrange equipment and help doctors during a range of surgical procedures. They also may be responsible for ensuring aseptic conditions in the operating room, as well as cleaning and preparing all instruments that might be needed in an operation.

This program prepares you for a career as a professional member of a surgical team. Students are involved in lecture and discussion classes as well as clinical learning experiences

The degree program is ideal for those interested in entering the field of surgical technology and who are looking for an accredited program to gain certification.
